

**APPLICATIONS AND METHODS FOR PROVIDING A REMINDER OR AN
ALERT TO A DIGITAL MEDIA CAPTURE DEVICE**

ABSTRACT OF THE DISCLOSURE

A notification system that reminds and/or alerts a digital media capture device that a media event that warrants capture is imminent. The notification system is
5 implemented in conjunction with a digital planner such that event reminders are placed in the digital planner of a digital device and alerts are then sent to an associated digital media capture device proximate to the occurrence of the media event. The alerts may be sent to internal digital media capture devices or the alerts may be sent to external digital media capture devices that are remote from the device on which the digital planner is
10 implemented.
